2009 Real Cars

Old Drivers Spirit is proud to release a 2009 real cars pack for the HGTTTC mod of rFactor.

**This car pack is our first attempt to make skins.
We had a lot of issues (finding sponsor logos ...)
Some cars aren't exactly the same due to HGTTTC v1.01
mod limitations and 3Dmodels availability.**

**For many skimmers, it was there first skins. Thanks to all
of them for spending so much time by doing this.**

**Anyway, we did our best and worked a few months to
deliver over 80 real historic car skins to the community.**
